

Here is a summary of migrant deaths reported in August--pretty much a brutal repeat of July.

Recently found individuals grouped by PMI (Post Mortem Interval):

- 8 dead less than a day
- 6 dead less than 1 week
- 1 dead less than 3 weeks
- 4 dead less than 5 weeks
- 5 dead more than 6-8 months
- 1 not yet evaluated

Total: 25

Updates for previous cases:

- 13 individuals newly identified by name
- 24 individuals properly plotted on the map thanks to newly uncovered information

Again this month the map shows that the deaths were spread widely across the Arizona border. Also attached is the summary of monthly and yearly statistics for the last 15 years.

Total deaths currently recorded in our database: 3,317
